Work Experience

Province of Surigao del Sur Jan 2021 – Present

Lead Software Developer

- Updated old code bases to modern development standards, improving functionality. Works closely with the copy writing team.
- Participated in software field testing to verify performance of developed projects.
- Collaborated with project managers to select ambitious, but realistic coding milestones on pre-release software project development.
- Designed customized solutions for proposals to potential customer
- Designed reusable and reliable code for use within distributed cloud environments.
- Discussed issues with team members to provide resolution and apply best practices.
