Software engineer with 5+ years of production work in Laravel, Vue, Go and AWS for a law firm, a four-campus university and a provincial government, often as the sole engineer. Open to remote roles and contracts.

Experience

Freelance Software Engineer

2024 – Present

Independent contractor

Surigao del Sur, PH

Case management platform for a law firm | Laravel, Vue, Inertia, MySQL, AWS (EC2, RDS, S3, SES)

[Case study](#)

- Built it solo in about 4 months; up to 10 attorneys and staff now use it daily instead of shared spreadsheets.
- Billing, document templates, role-based access, and a client portal with messaging and an audit trail.

Multi-campus data hub for a state university | Laravel, Go, Vue, MySQL, S3, ClamAV, ONLYOFFICE

[Case study](#)

- Built a Drive-style file and submissions platform, live on all 4 campuses, with ONLYOFFICE in-browser editing.
- Wrote the Go services around it: resumable uploads (tus) for slow campus connections and exam-week spikes, ClamAV scanning with quarantine, and X.509 signing for official PDFs.

Software Engineer

2021 – 2024

Province of Surigao del Sur

Tandag, PH

Laravel, Vue, MySQL, SQL Server, Python, Android

- Built the E-PDS records platform (500+ civil-servant files) and a tourism dashboard, replacing paper and Excel.
- Cut report load times by about 60% by fixing N+1 queries and adding indexes.
- Wrote an offline Whisper speech-to-text tool the provincial board still uses for confidential session recordings.
- Half-day payroll tasks became one click: automated GSIS deductions, BIR tax reports and SMS notifications.
- Brought in Git, code review and CI/CD, and mentored 3 engineers.

Intern Developer

Jul – Aug 2018

North Eastern Mindanao State University (NEMSU)

Tandag, PH

- Developed a faculty evaluation app used by 3,000+ students, with Python sentiment analysis on comments.

Skills

Languages: PHP, Go, TypeScript, JavaScript, Python, SQL, Java, C#

Frameworks: Laravel, Vue.js, Inertia.js, Tailwind CSS, Node.js / Express, REST APIs, PHPUnit, Pest

Infra & data: AWS (EC2, S3, RDS, SES), MySQL, SQL Server, Docker, Nginx, Cloudflare, ClamAV, Linux, CI/CD

AI / ML: Whisper, CTranslate2, on-device inference, NLP

Education

Surigao del Sur State University (now NEMSU)

2015 – 2019

BS Computer Science

Tandag, PH
