

Christopher Vistal

Tandag, Surigao del Sur, PH (UTC+8) · +63 927 032 3277 · vistalchris@gmail.com · chris-dev.netlify.app · github.com/christophervistal25 · linkedin.com/in/christophervistal25

Software engineer with 5+ years building production platforms end to end, from system design and data modeling to APIs, deployment and security. Open to remote roles and contracts.

Experience

Freelance Software Engineer

Independent contractor

2024 – Present

Surigao del Sur, PH

Case management platform for a law firm | Laravel, Vue, Inertia, MySQL, AWS (EC2, RDS, S3, SES)

[Case study](#)

- Designed and shipped the platform solo in about 4 months; up to 10 attorneys and staff use it daily with role-based access control, and the firm's spreadsheet workflow is retired.
- Built billing, document templates, SES email alerts, and a client portal with messaging and an audit trail.

Multi-campus data hub for a state university | Laravel, Go, Vue, MySQL, S3, ClamAV, ONLYOFFICE

[Case study](#)

- Built a Google Drive-style file and submissions platform with ONLYOFFICE for in-browser document collaboration, now live for faculty across all 4 campuses.
- Wrote Go sidecars for resumable uploads that survive exam-week traffic on flaky campus networks, ClamAV virus scanning with quarantine, and X.509 PDF signing.

Software Engineer

Province of Surigao del Sur

2021 – 2024

Tandag, PH

Laravel, Vue, MySQL, SQL Server, Python, Android

- Built a records platform for 500+ civil-servant files and a tourism dashboard, replacing paper and Excel.
- Cut reporting response times by ~60% through query optimization.
- Built an offline AI transcriber for the provincial board, so confidential audio never leaves the machine.
- Automated payroll deductions, tax reporting and SMS alerts, turning half-day tasks into one click.
- Introduced Git, code review and CI/CD; mentored 3 engineers.

Case studies: [records platform](#), [offline transcriber](#)

Intern Developer

North Eastern Mindanao State University (NEMSU)

Jul – Aug 2018

Tandag, PH

- Built a faculty evaluation app used by 3,000+ students, with Python sentiment analysis on written feedback.

Skills

Languages: PHP, Go, TypeScript, JavaScript, Python, SQL, Java, C#

Frameworks: Laravel, Vue.js, Inertia.js, Tailwind CSS, Node.js / Express, REST APIs, PHPUnit, Pest

Infra & data: AWS (EC2, S3, RDS, SES), MySQL, SQL Server, Docker, Nginx, Cloudflare, ClamAV, Linux, CI/CD

AI / ML: Whisper, CTranslate2, on-device inference, NLP

Education

Surigao del Sur State University (now NEMSU)

BS Computer Science

2015 – 2019

Tandag, PH
