Software engineer, 5+ years in Laravel, Vue, Go and AWS. Open to remote roles and contracts.

Experience

Freelance Software Engineer

2024 – Present

Independent contractor

Surigao del Sur, PH

Case management platform for a law firm | Laravel, Vue, Inertia, MySQL, AWS

[Case study](#)

- Built it solo in 4 months; up to 10 attorneys and staff use it daily instead of spreadsheets.
- Billing, document templates, role-based access, and a client portal with an audit trail.

Multi-campus data hub for a state university | Laravel, Go, Vue, MySQL, ONLYOFFICE

[Case study](#)

- Drive-style file and submissions platform, live on all 4 campuses, with ONLYOFFICE editing.
- Wrote Go services for resumable uploads, ClamAV virus scanning and X.509 PDF signing.

Software Engineer

2021 – 2024

Province of Surigao del Sur

Tandag, PH

- Built E-PDS (500+ civil-servant records) and a tourism dashboard, replacing paper and Excel.
- Cut report load times by about 60% by fixing N+1 queries and adding indexes.
- Wrote an offline Whisper transcriber the provincial board still uses for confidential sessions.
- Half-day payroll tasks became one click: GSIS deductions, BIR tax reports, SMS notices.
- Brought in Git, code review and CI/CD, and mentored 3 engineers.

Intern Developer, North Eastern Mindanao State University

Jul – Aug 2018

- Developed a faculty evaluation app used by 3,000+ students, with Python sentiment analysis.

Skills

Languages: PHP, Go, TypeScript, JavaScript, Python, SQL, Java, C#

Frameworks: Laravel, Vue.js, Inertia.js, Tailwind CSS, Node.js / Express, REST APIs, PHPUnit, Pest

Infra & data: AWS (EC2, S3, RDS, SES), MySQL, SQL Server, Docker, Nginx, Cloudflare, Linux, CI/CD

Education

BS Computer Science, Surigao del Sur State University (now NEMSU)

2015 – 2019
